PROFESSIONAL SUMMARY

Dynamic Senior Stack Engineer with over 3 years of experience architecting high-performance enterprise applications. **Expert** in scaling full-stack JavaScript and Python ecosystems, cloud-native infrastructure, and technical leadership. **Proven success** in leading 25+ member engineering teams to deliver robust SaaS solutions, optimizing system performance, and mentoring junior talent to drive operational excellence across international projects.

PROFESSIONAL EXPERIENCE

Senior Stack Engineer & Team Lead | MarketBytes

June 2024 – June 2026

Mentored a 25+ member engineering division, overseeing technical delivery, code reviews, workflows, and performance evaluations.

Architected scalable full-stack solutions using Python (Django/FastAPI) and modern JavaScript (React.js, Next.js, Vue.js).

Managed end-to-end infrastructure on AWS and VPS, including Docker containerization, Bash scripting, and GitHub repository management.

Served as chief technical consultant for international clients, ensuring system security, high uptime, and the implementation of robust SEO-friendly architectures.

Designed and delivered comprehensive training curricula for HTML, CSS, Tailwind CSS, React.js, Next.js, and Python frameworks.

Senior Full Stack Developer | PixelBoho

August 2023 – May 2024

Engineered custom React.js frontend applications, focusing on modular architecture and optimized performance.

Built scalable microservices and APIs using Django REST Framework for complex multi-tenant platforms.

Collaborated with stakeholders to deliver accessible, pixel-perfect UI/UX designs.

Mentored and guided junior engineers through technical code reviews and pair programming sessions, improving overall code quality and reducing deployment bugs by 20%.

Optimized application performance by implementing lazy loading, code splitting, and memoization techniques, which reduced page load times by approximately 30%.

Junior Full Stack Developer | Ezer Developers

May 2023 – August 2023

Developed modular components using React.js and standardized UI practices.

Built and maintained applications utilizing HTML, CSS, Bootstrap, and the Django framework.

Developed and customized high-converting Shopify e-commerce sites.

Refactored legacy codebases to optimize SQL queries, improve latency, and resolve production bugs.

CORE COMPETENCIES

Architecture: System Architecture, Microservices, API Design, Scalable Infrastructure

Backend: Python, Django REST, FastAPI, Node.js, MySQL, PostgreSQL

Leadership: Agile/Scrum, Team Management, Mentorship, Client Advisory

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), Tailwind CSS, Bootstrap

Cloud/DevOps: AWS, Linux VPS, Docker, Bash, CI/CD, Hosting Management

SELECTED PRODUCTION DEPLOYMENTS

MarketBytes ERP: Led the design and deployment of a scalable ERP platform, centralizing finance, HR, inventory, and project management for enterprise operations.

TaxMind: Architected a comprehensive tax automation framework featuring an AI-driven document summarization pipeline using the Claude API.

MuvrCloud: Built a platform for the relocation industry to automate end-to-end workflows, including bookings, inventory, and logistics.

Crossroads Career Consultants: Developed a bespoke CMS-driven website for an international education consultancy, enabling code-free management for stakeholders.

Sydney Film Works: Created a high-performance digital showcase platform optimized for portfolio management and commercial client engagement.

EDUCATION

B.C.A. (Computer Applications)

Mar Kuriakose Arts and Science College, Puthuvely, Koothattukulam | Graduated 2022
